LOAN SCHEMES BY HBOR, HAMAG & BANKS

Loans provide an infusion of fresh capital in companies for financing investment in development and at the same time guarantee longevity on the market.

In order to choose the loan that best suits your needs, it is necessary to properly read and understand the requirements of the available loan schemes.

Not only does choosing the appropriate loan scheme take time, it is important to identify your primary goal i.e. whether it is to refinance bad loans, provide additional working capital or find the best loans for new investments.

We will prepare the documentation and draft an investment study or a loan business plan and deliver it with the loan application to the creditor for processing. Leave the coordination of activities between you and the creditor during loan processing to us.
